Part #	Warning Labels	Each
Strangulation Label		1.25
	<p><b>Strangulation Warning Label;</b> (3.75" x 3.75") See CPSC Section 3.2.1, pages 14 and 15, and ASTM#F1487-11 Section 14.2.3. This label will inform, warn and educate about the hazard of a user being strangled on the playground and what steps to take to mitigate it and provides graphics for complete message clarity.</p> <p><b>Note:</b> CPSC says to place this label on or near "slides or other equipment", however, entrances to the entire plat area are the best locations so that the "message is conveyed" in a timely manner.</p>	
Hot Surface Label		1.25
	<p><b>"Hot Surface" Warning Label;</b> (2.5" x 2.5") See CPSC Sections 2.1, 2.4.2.1, 2.5.3, 5.3.6 and ASTM #F1487-11, Sections 14.2.4. This label warns the caregiver about the hazard of burn injuries and to check surfacing and/or equipment before use to mitigate burn injuries.</p>	
Surfacing Warning Label		1.25
	<p><b>Surfacing Warning Label (version B)</b> (2.5" x 2.5") complies with ASTM #F1487-11, Section 14.2.5. This label will inform, warn, and educate about the hazard of play equipment located over hard surfaces. The purpose of this label is to serve as a constants reminder and maintain appropriate surfacing.</p>	
Surfacing Level Marker Label		1.25
	<p><b>Surfacing Level Marker Labels</b> (2.5" x 2.5") See CPSC Sections 2.4.2.2(4) and 4.3. Allow maintenance people, supervisors and users to quickly and easily check the support posts for proper amount of loose fill surfacing depth. If the surfacing is below the marker, it's time to fluff it up or add more surfacing.</p>	
Tot Seat Label		1.25
	<p><b>Tot Seat Label</b> (2.5" x 2.5") says "Tot Seats for use by children under 4 years of age, with adult assistance" (per CPSC) and tells users and supervisors the appropriate ages for lot seats. It will reduce wear and tear, breakage, misuse, and injuries from users who are too old to use it. CPSC Section 2.2.6 says "Labels posted in the playground area or on the equipment should give some guidance to supervisors as to the age appropriateness of the equipment." Also, CPSC Section 2.2.7 says "Supervisors should look for posted signs indicating the appropriate age of the users and direct children to equipment appropriate for their age." See CPSC Sections 2.2.6, 2.2.7, and 5.3.8.3.2. See ASTM Standard #F1487 Section 14.2.1 as well.</p>	
Age Group Labels		1.25
	<p><b>Age Group Labels</b> (2.5" x 2.5" each) help with age separation, which is critical to safety and correct inspection evaluations! "For kids ages 2-5 years", "For kids ages 5-12 years", "For kids ages 2-12 years". CPSC Section 2.2.6 says "Labels posted in the playground area or on the equipment should give some guidance to supervisors as to the age appropriateness of the equipment." Also, CPSC Section 2.2.7 says "Supervisors should look for posted signs indicating the appropriate age of the users and direct children to equipment appropriate for their age." See ASTM Standard #F1487 Section 5.2, and Section 14.2.1 that requires these labels as well.</p>	
Adult Supervision Recommended Label		1.25
	<p><b>"Adult Supervision Is Recommended" Label</b> (2.5" x 2.5") tells users and caregivers that the playground is not intended as a place for unsupervised play. See CPSC Sections 1.6, 2.2.7, and the ASTM #F1487 "Introduction" and Section 14.2.2.</p>
